

## **25 years of Müller-BBM's Gelsenkirchen branch: Center of excellence for acoustics, building physics, and environmental protection celebrates anniversary**

The Gelsenkirchen branch of the Müller-BBM Group celebrated its 25<sup>th</sup> anniversary on September 11, 2025. What began as a three-man branch in the Nordsternpark Gelsenkirchen has now grown into a modern location with 3,600 m<sup>2</sup> of office, technical, and laboratory space, five Müller-BBM subsidiaries, and around eighty employees.

*Planegg/Gelsenkirchen, Germany.* – For a quarter of a century, the Gelsenkirchen branch has been part of the Müller-BBM Group and an important partner for industry and public customers in North Rhine-Westphalia. Thanks to the commitment of its employees and positive feedback from the market, a modern location has developed within Nordsternpark Gelsenkirchen over the past 25 years – with office buildings, a high-tech technical center, laboratory space, and test benches covering a total of 3,600 m<sup>2</sup>. Today, five Müller-BBM subsidiaries – Müller-BBM Industry Solutions, Müller-BBM Building Solutions, Müller-BBM VibroAkustik Systeme, Müller-BBM Projektmanagement, and BBM Akustik Technologie – employ more than eighty people here.

Under the motto „*Collaborative Innovation. Progress for the Region.*“, the Gelsenkirchen branch opened its doors to customers, business partners, and employees on September 11, 2025. Around 160 guests took the opportunity to attend expert presentations and practical demonstrations and to exchange ideas in person.

In her speech, Karin Welge, Mayor of Gelsenkirchen, praised the Müller-BBM branch in Gelsenkirchen as an integral part of the business community. Industry and public authorities value Müller-BBM's regional presence, broad range of services, and technical expertise.

Stefan Hegmanns, Chairman of the Gelsenkirchen Regional Committee of the Chamber of Industry and Commerce (IHK), also emphasized the importance of the group for the North Rhine-Westphalia region and presented Müller-BBM Industry Solutions with the anniversary certificate from the North Westphalia Chamber of Industry and Commerce on behalf of the Müller-BBM Group. Cooperation with industry, commerce, and local authorities – at regional, national, and international level – not only creates tailor-made solutions, but also attractive jobs in Gelsenkirchen.

“We look back with pride on 25 years of development at the Gelsenkirchen industrial site,” emphasized Dr. Peter Romanow, Chairperson of the Executive Board of Müller-BBM AG. “This successful development encourages us to continue developing the branch in a targeted manner and to

# MÜLLER-BBM

consistently pursue our focus on high-quality engineering services and products – with solutions that address the current challenges faced by our customers.”

The Gelsenkirchen site is already a center of excellence for technical acoustics, industrial sound insulation, plant engineering, sustainable buildings and spaces, environmental protection, approval management, and software solutions. The Müller-BBM Group will continue to expand its presence in the region and broaden its service portfolio in the future.
